

# How to earn money by playing video games.

## <Introduction>

Nowadays, you can make money almost everywhere and games are no exception. Many people don't believe it, but it really is possible. With advance in technology and popularity in the past decade, playing video games became more and more popular and even made opportunities to make money. Earning from gaming could be divided into 3 categories, namely "streaming", "esports" and "p2e" or „play to earn“ otherwise. I will introduce each of these categories and describe how and how much money can be earned in each of them.

## <What to mention>

Streaming: (mention Youtube, Twitch and other platforms, first streamers, biggest streamers, their earnings, comparison with regular Youtube video recording)

Esport: (what is it, is it a sport?, various games that have esport, history, big tournaments and prize pools, professional players, long trainings and the way to be professional)

Play2earn (what is it?, how is it related to crypto and technology, how much can be earned)
